the art of neuromonitoring

## Prologue

Dear colleagues,

it is a great pleasure to invite you to the IONM PRO SEMINARY Intraoperative Neuromonitoring in Thyroid and Parathyroid Surgery in Aalst.

An interesting and varied surgical programme awaits you. During the workshop you will have the opportunity to convince yourself of the usefulness of IONM in benign and malignant thyroid diseases as well as in parathyroid surgery. We would like to invite you to our workshop. See you in Aalst.

With kind regards

Dr. Van Slycke

## Facts

AZORG is the 3rd largest hospital in Flanders Belgium with a tertiary referral centre for Endocrine Surgery. Our unit is the 3rd ESES accredited centre for Endocrine Surgery.

In Flanders our department acts as the largest regarding endocrine procedures. We are working in close collaboration with all our colleagues from different specialties such as endocrinology - nuclear medicine - radiology - oncology - anatomopathology and general practitioners to offer the best and most individualized care to all our patients.

In our teaching department enthusiastic assistants and fellows combine surgical skills with scientific work resulting in our publications. Minimal access as well as robotic procedures with the latest technology available on place result in state of the art surgical techniques to meet the highest medical quality standards.
